STUDENTS

UNIFORM

RATIONALE

The purpose of the Uniform Policy is to engender in the students a sense of personal pride in their appearance and a sense of identity and collegiality.

It aims to reduce a spirit of competition between students with regard to dress and to create in students a sense of meeting the reasonable community standards of appropriate dress whilst acknowledging the need for comfort and the preservation of good health.

POLICY

Students at Daramalan are expected to wear the approved uniform.

Some options should be permitted within the uniform to allow for the growing autonomy of students.

In determining the uniform and regulations associated with uniform consideration should be given to suitability, gender equity, the developing autonomy of students, reasonable community expectations and affordability.

APPLICATION

1. There should be no unauthorised changes to uniform. Any change of uniform must be approved by the College Principal.
2. Significant change to the school uniform should involve community consultation.
3. It is the responsibility of staff to monitor school uniform, and students and parents to adhere to uniform requirements.
